Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by US Pat.

Application Publication No. 2002/0156171 A1 Drewniak et al..

Drewniak discloses the instantly claimed compounds, articles, and methods at the abstract; sections [0002], [0008], [0015]-[0024], which encompasses the instantly claimed amounts of ingredients of claims 1, 4, 8, 14, and 16 and the modified polyolefin falls within the scope of the instantly claimed “compatibilizing dispersion agent” since it performs that function, [0025]-[0026], [0034]-[0042], [0043]-[0045], which encompasses the instantly claimed nanoclays, [0048]-[0065], which encompasses the instantly claimed method steps of claims 5, 10, and 11 and sections [0048]-[0049], [0051]-[0052] further encompass the instantly claimed amounts, [0053] encompasses the additives of the instant claims 3, 12, and 13, [0077], [0087], [0089], [0090], of which the examples use amounts falling within the scope of the instant claims, [0092], [0093], [0095], of which the examples use amounts falling within the scope of the instant claims, [0097] of which the polyethylene octene falls within the scope of the elastomer of the instant

claims 2 and 17, [0098]-[0114], the claims, and the remainder of the document. Pellets of the instant claim 9 are disclosed at section [0064].

4. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Pat. Application Publication No. 2002/0156171 A1 Drewniak et al..

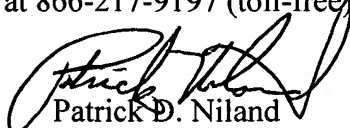

Drewniak discloses the instantly claimed compounds, articles, and methods at the abstract; sections [0002], [0008], [0015]-[0024], which encompasses the instantly claimed amounts of ingredients of claims 1, 4, 8, 14, and 16 and the modified polyolefin falls within the scope of the instantly claimed “compatibilizing dispersion agent” since it performs that function, [0025]-[0026], [0034]-[0042], [0043]-[0045], which encompasses the instantly claimed nanoclays, [0048]-[0065], which encompasses the instantly claimed method steps of claims 5, 10, and 11 and sections [0048]-[0049], [0051]-[0052] further encompass the instantly claimed amounts, [0053] encompasses the additives of the instant claims 3, 12, and 13, [0077], [0087], [0089], [0090], of which the examples use amounts falling within the scope of the instant claims, [0092], [0093], [0095], of which the examples use amounts falling within the scope of the instant claims, [0097] of which the polyethylene octene falls within the scope of the elastomer of the instant claims 2 and 17, [0098]-[0114], the claims, and the remainder of the document. Pellets of the instant claim 9 are disclosed at section [0064].

It would have at least been obvious to one of ordinary skill in the art at the time of the instant invention to use the instantly claimed ingredient combinations, amounts thereof, and processing steps in making the final articles because they are encompassed by the reference and would have been expected to give the properties and results disclosed by the reference.
